Regional Manager for Ontario - Toronto

A. Kathan,
Regional Manager for Western - Winnipeg

A.B. Tinglin,
Regional Manager for Pacific - Vancouver

Fishing Vessel Insurance Plan
Annual Report and Financial Statement
For Year Ending March 31, 1985

Report of the Director Economic Programs Branch

Plan Performance

The performance of the Plan in 1984-85 showed a loss to the reserve fund of $1.35 million, almost as much as the loss of $1.42 million in 1983-84, and much more than the loss of $260,000 in 1982-83. Losses in the Pacific Region fell markedly from $914,000 in 1983-84 to $279,000 in 1984-85, while the Western Region's usual slight gain on operations became a loss of $144,000, mostly due to a single loss of about $140,000 in the high Arctic.

The Plan's loss for the year was principally due to its performance in Nova Scotia and the west coast of Newfoundland. Nova Scotia's loss was $1.8 million and this was twice the 1983-84 loss in this province of $904,000. Losses on the west coast of Newfoundland also nearly doubled from $287,000 in 1983-84 to $556,000 in 1984-85.

However, the rest of Newfoundland showed a gain of $221,000; and Quebec more than quadrupled its 1983-84 gain of $117,000 and posted a profit of $511,000. These gains, to a certain extent, offset losses elsewhere, resulting in a more favourable picture for the Plan as a whole.

Policies In Effect

The number of policies in effect at the end of the year was 8,371, almost exactly the same as the 8,365 in effect at the end of the previous year. However, the total insured value rose from $313 million to $361 million. That is the insured value of the average vessel rose from about $37,500 to $43,100.

Administration

On November 13, 1984 the Minister announced the government's intention to privatize the Plan by April, 1986. Representations from industry and fishermen's organizations invited a review of this intention, and as a result it was announced on March 22, 1985 that the federal government will continue to offer insurance coverage to fishermen under the Plan. Further, the Minister stated that he will work with industry to place the Plan on a self-sustaining basis.

.../2

The Minister also said that several changes in the administration of the Plan will be introduced. Among these are increases in premiums for particularly high risk vessels and increased rates where they have previously been set at artificially low levels.

It is expected that the changes intended by the Minister will be introduced during fiscal year 1985-86.

J.E. Hall

A. Kathan
Responsable régional pour les Prairies
et T.N.O. (Ouest) - Winnipeg

A.B. Tinglin
Responsable régional pour le Pacifique - Vancouver

Régime d'assurance des bateaux de pêche
Rapport annuel et état financier
pour l'année se terminant le 31 mars 1985

Rapport du directeur des programmes économiques

Rendement du régime

En 1984-1985, le régime a accusé une baisse du fonds de réserve de 1,35 million de dollars, presqu'autant que le déficit de 1,42 million enregistré en 1983-1984, et beaucoup plus que celui de 260 000 $ en 1982-1983. Dans la Région du Pacifique, les pertes ont baissé de façon marquée, pour passer de 914 000 $ en 1983-1984 à 279 000 $ en 1984-1985, alors que dans la Région de l'Ouest, les faibles profits habituellement réalisés dans les opérations se sont transformés en un déficit de 144 000 $, principalement dû à une perte unique d'environ 140 000 $ dans l'extrême Arctique.

Le déficit du régime pour l'ensemble de l'année est principalement dû à son rendement en Nouvelle-Ecosse et sur la côte ouest de Terre-Neuve. En Nouvelle-Ecosse, le déficit a éte de 1,8 million de dollars, soit le double des 904 000 $ qu'il était dans cette province en 1983-1984. Les pertes enregistrées sur le côte ouest de Terre-Neuve ont également presque doublé pour passer de 287 000 $ en 1983-1984 à 556 000 $ en 1984-1985.

Cependant, le reste de Terre-Neuve a réalisé un surplus de 221 000 $, et le Québec a plus que quadruplé son surplus de 117 000 $ de 1983-1984, soit un profit de 511 000 $. Ces surplus, dans une certaine mesure, ont permis de compenser les pertes encourues ailleurs, entraînant des conséquences favorables pour le régime dans son ensemble.

Polices en vigueur

Le nombre de polices en vigueur à la fin de l'année était de 8 371, soit presque exactement le même (3 365) que l'année précédente. Cependant, la valeur totale assurée est passée dans le même temps de 313 millions de dollars à 361 millions, cela étant dû au fait que la valeur moyenne assurée par navire est passée de 37 500 $ à 43 100 $.

Administration

Le 13 novembre 1984, le Ministre annoçait l'intention du gouvernement de privatiser la Régime d'ici avril 1986. L'industrie et les associations de pêcheurs ont fait pression pour que cette intention soit reconsidérée. Suite à ces démarches, le gouvernement fédéral a annoncé le 22 mars 1985 qu'il continuerait d'offrir aux pêcheurs une assurance en vertu du Régime. Le Ministre a par ailleurs indiqué qu'il collaborera avec l'industrie en vue d'assurer l'auto-financement du Régime.

.../2

Le Ministre a également indiqué que plusieurs modifications seront apportées à l'administration du Régime, notamment, une hausse des primes pour les navires à risque particulièrement élevé et dans les cas où elles avaient été artificiellement fixées à un faible taux.

On s'attend à ce que les modifications prévues par le Ministre soient apportées au cours de l'année financière 1985-1986.
